

## SMOKY SEASON 2021 CONTINGENCY PLAN FOR BREAK & LUNCH

When we considered our options for what to do during the smoky season, we took into account many factors that would affect our contingency plan. Specifically, COVID protocol measures, shared spaces at NIS: auditorium, multipurpose, canteen etc... This includes working with all school schedules, personnel availability, custodial crew schedule, and resource availability. Many moving parts are involved in order for us to make things run smoothly for our kids during this challenging time of the year.

Our AQI numbers are based on the Ministry of Natural Resources and Environment - Pollution Control Department (PCD) regional office in Chiang Mai.

[\(http://air4thai.pcd.go.th/webV2/\)](http://air4thai.pcd.go.th/webV2/)

0-25	26-50	51-100	101-200	201 and Above
VERY GOOD	GOOD	MODERATE	BEGIN TO AFFECT HEALTH	HAVE EFFECT ON HEALTH

These are our procedures that we currently have in place for the different school levels:

1. If the AQI is **below 170**, morning break and lunch will proceed as **normal**. Students can eat and play outside.
2. If the AQI is **170 and above**, there will be an announcement at approximately 9:15 AM and 11:15 AM (for Elementary & AAP) / 9:50 AM and 12:05 PM (for Middle & High School) notifying everyone about it being an **indoor break or indoor lunch**.

*Disclaimer: Our procedures & indoor locations may be reviewed and modified as deemed necessary by the NIS Administration Team.*

*\*\*The decision is based on the AQI monitor located on our campus. This AQI reading is in real time for NIS and will not be the same number as the AQI number that appears on the phone apps such as Air Visual.*

## SMOKY SEASON 2021 CONTINGENCY PLAN FOR BREAK & LUNCH

### EARLY CHILDHOOD CENTER (ECC) BREAKFAST
